RE: Request for Approval of Merger-Related Riders: Merger Fuel Savings Rider MFS-2 and Merger Capacity Mitigation Rider MCM-2 for Progress Energy Carolinas, LLC
PSCSC Docket No. 2011-158-E

Dear Mrs. Boyd:

Pursuant to the Commission's order dated July 2, 2012 in the above referenced Docket, Progress Energy Carolinas, Inc. ("PEC") submits for approval Merger Fuel Savings Rider MFS-2 and Merger Capacity Mitigation Rider MCM-2. These Riders will reduce rates paid by South Carolina retail customers to reflect benefits achieved with the merger of Progress Energy, Inc. and Duke Energy Corporation. A copy of Merger Fuel Savings Rider MFS-2 and Merger Capacity Mitigation Rider MCM-2 are attached as Exhibit Nos. 1 and 2, respectively, for Commission approval.

Merger Fuel Savings Rider MFS-2 establishes a decremental rate that will be effective for bills rendered on and after September 1, 2012 through June 30, 2013. Rider MFS-2 reflects projected fuel and fuel-related savings expected to be achieved following the close of the merger. The derivation of the decrement rate is provided in Exhibit No. 3. Bruce Barkley, Manager of Fuel Forecasting and Regulatory Support, has executed and attached a Verification supporting the rate calculation.

Merger Capacity Mitigation Rider MCM-2 establishes a decremental rider that will be effective for a thirty-five (35) month period for bills rendered on and after September 1, 2012 through July 31, 2015. The Rider results from market power mitigation interim wholesale sales and is calculated based upon the revenue requirement of generating facilities expected to be on the margin during the months and hours between July 1, 2012 and May 31, 2015. The derivation of the decremental rate is provided in Exhibit No. 4 to this letter. The Rider establishes a decremental rate that will be uniformly applied to all South Carolina retail sales and will not be
